

6th ECG WORKSHOP 2017

Facing with the Jeopardized ECG

29-30 July 2017

12nd floor, Bhumisirimangalanusorn Building
King Chulalongkorn Memorial Hospital

Course Description

This course is designed to instruct general practitioners, internists, internal medicine residents, cardiology fellows, intensive care nurses and anyone who is interested in the electrocardiogram (ECG) interpretation including bradyarrhythmias, tachyarrhythmias, and ECG in special conditions. An understanding of basic ECG is a prerequisite for participants.

Agenda

Saturday, 29 July 2017
